## FREIGHT RATES

A few days ago we noticed some nice looking cabbage in one of our stores, the price being six cents a pound. This seemed to us to be a very high price. It happened that on the same day we read a statement, from a reliable source, that the freight on a carload of cabbage from Texas to Nebraska was \$425. This led us to investigate further. We found, according to a report of the New York Market Commission, that Texas and Florida truck farmers had shipped a very large amount of produce to New York, which had not sold for enough to pay the freight and commission charges. We found proof that enormous quantities of perishable agricultural products were unharvested because high freight rates made it unprofitable to ship them. The Texas Director of Markets says that 3,000 cars of early vegetables are rotting in Texas fields. He says, too, that Texas rice can be shipped by water to Europe and back to New York cheaper than direct by rail across country. He says Texas cotton can be shipped to England for 35 cents a hundred pound, and that it costs 95 cents a hundred to transport cotton by rail from the interior of Texas to the seaboard, a distance of 300 miles. Not all the testimony comes from Texas and Florida. Governors of States, Boards of Agriculture, and trade and manufacturing associations, are deluging the Interstate Commissions with testimony showing that the greatest obstacle in the way of a return to normal conditions and the restoration of business, is the high cost of railroad transportation.

Some seven months ago there was in this country a shortage of half a million freight cars. About this time the Interstate Commerce Commission yielded to the plea of the railroad executives and authorized an increase of twenty per cent in freight rates. It was expected that this increase in rates would largely increase the receipts of the roads. As we have shown above, the increased rates proved in many instances to be prohibitive. The shipments fell off so that today there are half a million idle freight cars in the United States. Only a few of our railroads are earning enough to pay expenses.

On the twentieth day of last July, under a pressure which was little short of a threat, a wage increase was granted to railroad men which added \$600,000,000 to the annual operating expenses of our railroads. The Federal Railroad Board to which the matter of a wage reduction was recently referred has handed down a decision which would reduce the wage scale to about a total of \$400,000,000. It is proposed that this scale shall be in effect on the first day of next month. We assume that the labor leaders will rave and wring their hands but we believe that at least 90 per cent of our railroad workers are sensible men and will not kill the goose which has laid for them so many fairly good-sized eggs. We believe they will accept the cut and will consent to an elimination of that code of McAdoo rules under which, in thousands of instances, high wages have been collected for work not done.

After the above concessions have been made by the railroad employees, the railroad executives must promptly reduce freight rates. If they do not do this they will ride to a fall. The business of the United States cannot stand the present rates of freight transportation. There is one other thing which the railroad executives should do. They should cut their own salaries at least fifty per cent, and do real work, instead of spending their time in devising schemes for skinning the public.

## CUT IT OUT.

United States Senator Curtis held up some appropriation bills a few days ago by offering amendments thereto. One of these bills carried a large sum for printing. Senator Curtis moved to amend by requiring that heads of departments should discontinue the printing of annual or special reports when the appropriation therefor was expended. This is well as far as it goes, but it would be better to strike at the roots of the matter. A very large percentage of the stuff sent out by the major departments of the government at Washington is certainly worthless. Much of it is transparent propaganda. Several of these departments maintain an editorial staff whose business seems to be to feed the public on husks. We hope the United States Sec-

POISONS SYSTEM

The majority of people suffer from constipation which poisons the whole system and causes coated tongues, bad headaches, foul breath; in children often results in fever and actual illness. These conditions may be quickly relieved by Dr. True's Elixir—the Family Laxative that has worked wonders for men, women and children since 1851. "I have great faith in your Dr. True's Elixir. I give it to my boy, it is doing him much good and I would not be without a bottle for anything."—Mrs. Joseph Boyce (Tracey Station, N. B.) retary of Agriculture will some day find time to read the "Weekly News Letter," which emanates from his publicity bureau. If he does we think he will order his editors to cease work until they know better than to recommend the cultivation of sunflowers for ensilage on which to feed milk cows. The Weekly News Letter is neither practical nor scientific. The money spent for its preparation, publication and distribution is wasted.

For more than twenty years following the close of the Civil War, Henry W. Grady of Georgia did more than any other son of the South in reconciling the antagonisms between the South and the North. Mr. Grady was a forward-looking statesman and a scholar and as a lecturer he was without a peer in all the South. In addressing the New England club in New York City in 1886 among other things he said: "We have learned that one northern immigrant is worth fifty foreigners, have smoothed the path southward, wiped out the place where Mason and Dixon's line used to be and hung out the lathstring to you and yours." As a result of this wise policy he remarked: "We are now ready to lay odds in favor of the Georgia farmer who is squeezing pure olive oil out of his cotton seed, and against the downeaters, who, before the war, swapped their wooden nutmegs for red flannel sausages in the valleys of Vermont." A well known Belfast man, recently sojourning in Tennessee, had his attention called to a large factory and asked what was being manufactured there. His guide proudly answered: "The girls of Tennessee are making silk hosiery out of Georgia cotton."

"The South is in the saddle." There is no longer any doubt about that.

In the treaty of peace the Germans obligated themselves to bring to trial those officers who had been accused of abusing Allied prisoners of war and to punish those who were found guilty. The Allies furnished the German government with a list of some 800 offenders and it is said that between forty and fifty of these cases have been marked for trial. A sergeant and a captain have been tried, found guilty and sentenced to imprisonment, one for six and one for ten months. We have not been informed how many have been acquitted, are wearing iron crosses and are receiving the plaudits of the German people. There are few people in this country who are credulous enough to believe that these trials will be more than well staged farces or that those convicted will receive any real punishment.

In this issue of The Journal we publish an article written by Hon. Charles P. Barnes, which gives some important information concerning our water powers. Mr. Barnes was for some years Asst. Attorney General of the State of Maine and is an able lawyer. The water power discussion is now, and will for some time continue to be both lively and important, and it is probable that something the voters of this State will be called upon to decide whether or not they will make a plunge into State ownership.

The chief of police of Chicago says: "History tells us that after every war come the pirates. America is invaded by the automobile pirate. Instead of ships, these pirates hold up automobiles and rob the occupants. In place of high seas the roads are plundered." We shall be surprised if there are not many hold-ups in Maine during the vacation season. When we go motoring we shall leave our diamond ring and our wad at home.

President Harding has nominated Hon. Frank J. Ham as collector of internal revenue for the District of Maine and the nomination will doubtless be confirmed by the Senate. Mr. Ham has special qualifications for this position and will be as eminently efficient as collector as he has shown himself to be in other public positions with great credit to himself.

A great many people think that poultry raising is a small business, but in the aggregate it is great industry. The last census figures show that in 1919 Maine produced \$7,725,000 worth of poultry and eggs. The production in the United States amounted to \$1,250,000,000.

The officials of the League of Nations are not happy at Geneva. They say they want a "permanent seat" somewhere else. Most of us are of the opinion that "up a stump" would be a very proper location.

We notice that the directors of the Bangor and Aroostook railroad have closed nine stations along the line of the road. This ought to save enough to pay half the salary of the president of the road.

## Editorial Notes from Courier-Gazette.

That there are not a thousand men among the millions of citizens of the United States who can make out an average income tax statement and do right, was the assertion of Senator Reed Smoot at a recent hearing before the finance committee of the Senate. His assertion was approved by the nodding of heads of many business men who had been through the nerve-racking experience of trying to comply with the requirements of the income and excess profits tax laws.

A valued correspondent calls attention to this paragraph:

"Why were the saints, saints? Because they were cheerful when it was difficult to be cheerful, patient when it was difficult to be patient; and because they pushed on when they wanted to stand still, and kept silent when they wanted to talk, and were agreeable when they wanted to be disagreeable. That was all. It was quite simple, and always will be."

Exhibition of Miss Frances Clark's  
Dancing Classes.

On Tuesday evening, May 24th, an occasion pleasantly anticipated for some weeks, Miss Frances Clark, a pupil of Mrs. S. C. Pattee, assisted by her sisters the Misses Louise and Dorothy Clark, presented the pupils of her dancing class for young misses in a most charming entertainment at the Hiramale Gun Club house, East Side. Because of inadequate accommodation the number of patrons was limited, the house being filled to its utmost capacity by an appreciative and enthusiastic audience, including auto parties from Searsport and Lincolnville. The winsome faces, graceful poses and dainty costumes of the little maids won the immediate admiration of all; and the precision and grace with which they executed their fascinating steps did great credit to themselves as well as to the ability and painstaking efforts of their young teacher. The Misses Clark themselves contributed enjoyably to the entertainment, Miss Frances demonstrating her skill and spirit which so well qualifies her for instructing her young friends, and Miss Dorothy showing herself to be an apt and advanced pupil of her sister. The dramatic reading of Miss Louise Clark was given in the highly finished, artistic manner characteristic of her work, and she, as well as the others, gracefully responded to an encore.

## A Southern Woman

While we all know why we observe one day each year as Memorial Day to honor the memory of the brave boys who laid down their lives for their country, there are, perhaps, many who do not know the origin of the custom.

Its observance came from a suggestion made in 1866 by a lady of Columbus, Georgia. She was the wife of an officer who commanded the first Georgia Regulars, and who died in the service. After his death she devoted her life to the care of the Confederate soldiers, doing every thing in her power for their comfort and welfare.

One of her annual customs was to decorate with flowers her husband's grave on the anniversary of his death, April 26th. On one occasion her little daughter accompanied her and assisted in the work. Finally her mother missed her and at the same time noticed a large proportion of her flowers were missing.

When the child returned her mother said, "Why, Florence, you have carried away nearly all my flowers." "Oh, but mamma, they were all soldiers, too."

The little girl had scattered her flowers as far as they would go on the graves of the soldiers buried nearby.

This incident brought to mind the idea of devoting one day annually to decorating, in loving memory, the graves of the men who wore the gray. The idea was readily adopted and ever since, April 26th has been observed throughout the South as Memorial Day, with the exception of South Carolina. That State for some cause, unknown to me, observes May 10.

And now to the nation's credit every State in the Union unites in honoring and keeping green the memory of the brave sons who sleep in hallowed ground, the blue and gray alike, for it is a national holy day.

She died in 1874 and was buried with full military honors, and every year loving hands decorate her grave with beautiful flowers.

## WAS IT YOU?

Some one started the whole day wrong—  
Was it you?

Some one robbed the day of its song—  
Was it you?

Early this morning some one frowned;  
Some one sulked until others scowled;  
And soon harsh words were passed  
around—  
Was it you?

Some one started the day aright—  
Was it you?

Some one made it happy and bright—  
Was it you?

Early this morning, we are told,  
Some one smiled, and all through the day  
This smile encouraged young and old—  
Was it you?

## NORTHPORT

George Wadlin was at home over Memorial Day, the guest of his parents, Capt. and Mrs. Bartlett Wadlin of East Northport.

The post office at Bayside, Northport, Mrs. Hattie Wadlin Whiting, postmistress, was opened on June 6th, and the store of C. O. Dickey & Co. also opened at that time.

Mr. and Mrs. J. D. Mortimer of New York, have arrived and are looking after the erection of their new cottage on the Temple Heights road, which they expect to occupy this season.

Mr. and Mrs. G. H. Jennings and young son George H. Jr., have arrived from Cambridge and are guests for the summer of Mrs. Jennings' mother, Mrs. Henry G. Hills, East Northport. Mr. Jennings has received his discharge as first lieutenant in the merchant marine and will be located with a Boston electrical house, traveling in Maine.

A section of wharf from the fertilizer plant in Searsport was torn away in the wild storm of Sunday, May 22nd, and drifted across the bay to Northport. A man picked it up and went to considerable trouble to tie it up and save it, and when the owners came for it, he was unwilling to let it go without salvage. The matter was reported to the officers, and the wharf was taken, but the matter of salvage is yet to be decided.

Mr. and Mrs. Donald A. McLennan Mrs. Martha F. Peavey of Newton Centre and guest, Miss Elizabeth Daniel of Boston, motored to Northport May 28th to spend the holiday at Loch Haven, their summer place on the South Shore, Northport. They returned May 31st but plan to come for the summer in about ten days. Mr. and Mrs. Ralph A. Peavey of Newton Centre were to come at this time but the former was called to Charlotte, S. C., on business.

because it is actually as fine as the finest silk can make it.

Every pound of William Tell is sifted through silk, so fine that there are 21,000 meshes to the square inch.

It must go through this silk—not just once, but thirteen successive times.

Because we take no chance on William Tell being clean and fine and pure, you take no chance in using it for all your baking.

## PNEUMATIC TUBES

It is difficult to find any logical explanation for a mentality which refused the splendid service pneumatic mail tubes rendered in distributing mail in congested areas, but approved a flying machine mail service between New York and Washington, where there was already ample and adequately frequent service. Perhaps it wasn't the mentality which was affected, after all.

John E. Milholland, for many years an eminent figure in American public life, and well known as a journalist and speaker, tells in the June Forum of the amazing corruption in the recent administration, which went far in destroying the costly system of mail tubes erected by the government, the efficiency and worth of which has been repeatedly proved by numerous investigations. Mr. Milholland says:

"Away back in the Victorian era, pneumatic mail tubes were introduced in the chief European capitals. Today, London, Paris, Berlin, Vienna, Budapest and Rome have hundreds of miles of these efficient devices. America took the lead, however, in 1893, and held it for a quarter of a century, with a type of tube far superior to anything in Europe. This system consists—I use the present tense writing of the physical properties because

they exist today, ready for resumed use on a week's notice—of double lines of iron tubes, under the streets, skilfully designed dispatching and receiving apparatus, special types of air compressors at each connected post office, and cylindrical steel containers which were shot through the tubes at thirty miles an hour."

"The climax of this tragedy of governmental sabotage was dramatic. On one side was the Pneumatic Tube System, built at the Government's urgent solicitation, tried in the fire of ten investigations, and proved by a quarter of a century of unequalled service."

"On the other side stood Albert Burleson, who candidly admitted to a Senator, 'I don't know a damn thing about the tubes,' but was determined to reduce the postal facilities of a combined population of fifteen million to the level of his home town of Waco, Texas."—From Kennebec Journal.

## Men Are Four.

Men are four: He who knows, and knows he knows—he is wise—follow him. He who knows and knows not he knows—he is asleep—wake him. He who knows not and knows not he knows not—he is a fool—shun him. He who knows not, and knows he knows not—he is a child—teach him.—Arabian Proverb.

## A DISAPPOINTMENT

Governor Baxter's address at the Maine meeting in Bangor last Sunday was certainly a disappointment. A review of his actions last August, August which the public in general, very conversant with and was much interested in at this time. It was more a political natiatorial boomerang for his campaign, 1922 than just the opposite. The people of Maine just now are very much interested in what is the best to do in order to exploit her natural facilities in various lines rather than being particularly interested in any ones political aspirations. Humanity is weak so it is a great temptation for aspirants for political office and honors to take advantage of every public occasion to boom their candidacy.—Old Town Enterprise.

## ACT QUICKLY

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger, Doan's Kidney Pills are most effective. Ask your neighbor?

Plenty of Belfast evidence of their worth.

James Robinson says: "Some years ago I had a severe attack of kidney trouble. The kidney secretions bothered me when passing, as there was a burning sensation. My back ached most all the time. I was working in a lime kiln at the time and so much heavy lifting made it hard on my kidneys and I was feeling weak and run down. I got a box of Doan's Kidney Pills at Poor & Son's Drug Store and began using them. They soon relieved me of the trouble and I have never been bothered since."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same Mr. Robinson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## SALARIES FIRST

The world is being treated to the spectacle of Germany waging war against Poland. The latter country is a member of the league of nations, and presumably, is entitled to protection from that source. If she has misbehaved towards Upper Silesia it ought to be the business of the league to administer punishment; certainly chastisement ought not to come from Germany. But the league officials at Geneva are apparently too busy collecting funds to pay their own huge salaries to give much attention to practical peace measures.

## AN ANTI-CLIMAX.

It is told in all seriousness, that following a lecture in a Northern Maine town in which the speaker told of the benefits of having a health officer or district nurse and suggested that the town raise a sum of money for that purpose, he received an answer to his proposal to the effect that the town "had decided not to raise any money for the purpose specified, but voted to raise a sum to enlarge and improve its cemetery."

OSBORNE SAYS SHE SHUDDERS WHEN SHE THINKS HOW SHE SUFFERED.

"years," said Mrs. V. B. Osborne, 200 Lexington Ave., Lexington, Ky., "I was in a run-down condition; weak and dizzy. ## Fr. O'Mahoney a Loyal Citizen

The following extracts from an informal speech made by Rev. Fr. Timothy J. O'Mahoney, who has been the beloved pastor of St. Francis church since 1917, at his recent reception is only a brief forecast of what he will later relate to his people and the public. It also indicates that he is a loyal citizen as well as a devoted churchman.

Rev. Father J. O'Mahoney was given a right royal welcome Tuesday evening upon his return from a six months' absence in Ireland. A reception was planned by the members of St. Francis Catholic church, and other guests outside of the parish were invited. Catholics from Stockton Springs, Searsmont and Waterville were present, and Father O'Mahoney can have no doubt as to his popularity in his own parish and outside. Father MacPartland, who has been officiating as priest during his absence, presided Tuesday night and made the welcoming address to Father O'Mahoney, and presented to him in behalf of his parish a number of gifts.

Father O'Mahoney, in responding, said that he was very glad to be again in the good old land of Liberty, and thanked everyone for his welcome. He was suffering from a severe cold contracted on shipboard, and had only arrived that afternoon, so he said he was not prepared to tell much about his trip. He sailed from New York on November 13th for a six months' vacation, and visited his old home in Macroom, spending five months there and the other month on the continent of Europe. He had been in this country for eleven years, and during that time his father and mother have died, but he still has brothers and sisters in Ireland. He stated that he had witnessed many horrible sights in Ireland, and had been hampered greatly himself. At 7 o'clock at night, he stated, every man, woman and child was obliged, on the penalty of death, to be indoors, and from then on anything or everything might happen in the shape of bomb explosions, machine gun, rifle fire, etc. "I saw graves opened," he stated, "and other atrocities committed in the name of the British crown. I saw dead men carried by my door by the hundreds; and saw indiscriminate firing on the streets.

"There is only one land for me now, and that is the land of Uncle Sam. Every man is given a chance here, no matter who he may be. He may be poor, but he is just as good before the law as the wealthiest man. He may not be talented, but he is just as good under the United States law, and he is given a chance to make good in every way, provided the law is observed. I have traveled in many lands and seen many cities, strange faces and wonderful sights, but grand as they have been, my own old home in Belfast, Me., looks good to me, and when I set foot in 'little old New York' that looked good to me, too. I even went over to Coney Island. I feel more than ever that America has something good in store for every man, if he only looking for it. I don't believe there is a land in all God's earth that is suffering what Ireland is suffering, and has suffered at the hands of the English. There isn't any brutality that could be committed upon the human body that has not been perpetrated upon the Irish prisoners. Buildings of vast proportions have been leveled to the ground. Houses have been burned indiscriminately in the dead of the night. Men have been taken from their beds and shot before their families during the curfew hour, which was supposed to be instituted for the protection of the population. Ireland is the only white nation today that is not free, and yet two years ago we fought to make the world free."

CONGREGATIONAL CHURCH, NORTH BELFAST. A large congregation assembled again last Sunday evening when the Rev. A. C. Elliott conducted a special service for the young people. It was very gratifying to see so many children and young people at the service. If our churches are to be maintained, and are to continue to influence our community life, then it is imperative that our boys and girls should be interested in them. It was evident that there was something in the service which made its appeal to the young folks, and a similar service will be held in the near future. Heartily congregational singing is a special feature of the services in this church. Mr. Elliott will preach again on Sunday evening at 7.30. The public is cordially invited to attend. Come and hear the singing, listen to the sermon, and help to make this church a center of social and religious inspiration.

THE FIRST BAPTIST CHURCH. Rev. George C. Sauer, pastor; residence, 13 Cedar; telephone, 123-11. The services of worship on Sunday are at 10.45 and 7.30. Bible school at 12 o'clock and the Christian Endeavor at 6.30. Thursday at 7.30 the mid-week service. Strangers in the city are cordially invited, and the co-operation of friends throughout the community, who are not obligated by duty and interest to support some other church, is earnestly desired in the growing work of the church.

The Sunday morning worship will include numbers by the chorus choir, sermon by the pastor and brief address by Arthur Leonard Wadsworth of the Watchman-Examiner, one of the leading religious periodicals of the country. In the evening Walter Robinson, president of the Massachusetts "Gideons," a Christian commercial travellers' union, will be the speaker. Both these laymen are fine speakers, each representing a different phase of Christian service. It will prove an inspiring day. Everyone in the parish should strive to be present. At 2.30 there will be a service at Saturday Cove church. Miss Hopkins will sing.

Sunday of Orrin J. Dickey at Temple

of their host's fine cottages all in the  
pink of perfection and beautifully located  
on the side hill of this attractive part of  
Northport. Broiled and boiled lobsters  
with a delicious fish chowder added to  
the pleasure of all.

There was a good attendance at the B.

The entire program was remarkably well  
rendered, but the judges—Zenas D. Har-

for the cash prizes given by the City  
National Bank: Louise Newell and Wes-

Bernice Willard, the little daughter of  
Mr. and Mrs. A. C. Hopkins, observed  
her 5th birthday at their home on Court  
street last Saturday afternoon. There  
were eight guests with several grown  
ups and a few babies. The afternoon  
was spent with games and later all were  
invited to the dining room, which was  
decorated with the color scheme of pink  
and white. The table was centered with  
a dainty birthday cake with its five pink  
candles, the favors were small baskets  
filled with pink ribbon and filled with  
pink and white mints. Sponge drops, animal  
crackers and ice cream were served by  
Mrs. Hopkins, assisted by Mrs. James  
Farnham. The little hostess was de-  
lighted with the gifts of her little guests.

Word has been received of the marriage  
of Miss Marian MacMullin, daughter of  
the late Robert Burns MacMullin and  
M. Belle MacMullin, to Mr. Henry Cam-  
eron Eldert of New York. It was solemn-  
ized in St. Stephens Episcopal church,  
New York City, 69th and Broadway, at  
5 in the afternoon, May 25. Miss Mac-  
Mullin walked with her brother, Robert  
Burns MacMullin of Buffalo, N. Y., who  
gave her in marriage. Miss MacMullin  
was attended by her cousin, Miss Dorothy  
Stupham of New York, and younger  
sister, Frances Treadwell MacMullin.  
Mr. Eldert was attended by his cousin,  
Mr. George Linton. Mr. E. J. Boyd and  
Mr. Frederick Graff acted as ushers. Mr.  
and Mrs. Eldert will spend their honey-  
moon in Europe. They sailed on Satur-  
day, the 28th, on the Great White Star  
line, and will visit England, France, Bel-  
gium, Holland and Switzerland. A re-  
ception was given at Hotel Majestic.

A CHARMING SOCIAL FUNCTION. Mrs.  
Joseph W. Blaisdell entertained about  
fifty members of the Ulubers of the Alliance  
at her beautiful home, Georgian Hall, on  
High street, last Thursday afternoon in  
honor of Mrs. Arthur E. Wilson, who  
will leave in September for Dorchester,  
Mass., where Mr. Wilson has accepted a  
call to the Third Religious Society (Unitar-  
ian). While the guests were most cor-  
dially welcomed by Mrs. Blaisdell, Mrs.  
Wilson and Mrs. James C. Durham, presi-  
dent of the Alliance, the remainder of the  
program was strictly informal as the  
beautiful new home was very graciously  
thrown open and placed at the disposal  
of the guests. The reception, music, liv-  
ing and dining rooms were decorated with  
vases and jardinières of cut flowers and  
the billiard room with cut flowers and  
sprays of pussy willows. The hostess  
was assisted in serving a most delicious  
four course luncheon to the guests gath-  
ered in groups about the house and also  
on the porch, by Mrs. Sumner C. Pattee,  
Mrs. Allan M. Howes, Mrs. Dana B.  
Southworth, Miss Belle Keating, Misses  
Audrey and Julia Chalmers. Immediately  
following the luncheon all gathered in the  
living room, where Mrs. Durham in behalf  
of the Alliance presented Mrs. Wilson  
with a gift of \$75 in gold as a token of  
love and esteem. Mrs. Wilson's apt re-  
sponse was characteristic of her gracious-  
ness and moved her hearers alternately  
to smiles and tears. The keynote was  
one of sadness that the pleasant ties of  
the past so years were so soon to be  
severed. The thoughtfulness of her hos-  
tess and the kindly and substantial part-  
ing gift of the Alliance would always be  
pleasant memories. All were later given  
an opportunity to look over the entire  
house, one of the most artistic in the  
State.

The Belfast Teachers Club held a special  
session at the Peirce school Monday  
evening as guests of the teachers of that  
school. The occasion was the presenta-  
tion to the school of a new piano, earned  
with the proceeds of the pupils' en-  
tertainments, etc. A legal deed giving the  
piano to the school was presented by Mrs.  
Charles A. Townsend, principal, and was  
accepted by Supt. E. E. Roderick. The  
lower hall, where the piano was placed,  
was decorated with flags and red, white  
and blue bunting. Submaster Harold S.  
Webb played several solos on the new  
piano. Refreshments were served by the  
Peirce school teachers. The Teachers'  
Club had a picnic supper and meeting at  
the McLellan school grounds last Thurs-  
day evening.

A Midsummer Eve, a fairy play, given by  
the McLellan school, Colonial Satur-  
day afternoon was well attended and  
was also a financial success, netting  
the school treasury \$55.88. The chorus  
work was excellent, showing painstaking  
drill work of teachers with care and  
attention by the pupils who were sweet  
and dainty in the paper costumes. The  
Princess forget-me-not, little Lillian Or-  
chard, in her night dress, which was the  
only soloist and she was as pretty as a picture.  
The teachers wish to especially  
thank Mrs. Bessie McKee, who acted as  
their pianist. Weather permitting, the  
play will be repeated on their school  
grounds Friday afternoon without admis-  
sion. This is really one of the best things  
ever presented by the schools and at-  
tending friends are urged to attend.

Belfast early Tuesday evening. They  
planned to spend the night at Lincoln-

picturesque native costumes with war

they made a pretty picture on the still  
waters of the bay.

#### A Double tragedy

At Sandpoint, When Two Belfast Young  
Men Were Electrocuted.

A most appalling accident occurred last  
Thursday afternoon at Sandpoint when  
two young men, Donald B. Rogers and  
Howard Robert Wilson, both of Belfast,  
were instantly killed by coming in con-  
tact with a high tension electric wire.  
They were men for the Central Maine  
Power Company and were at work re-  
pairing a private telephone line for the  
company on their regular power poles  
which run from the power station at East  
Orland to Belfast. Wilson, with a coil of  
telephone wire, had climbed a power pole  
near the residence of Fred F. Black on  
Shipyard avenue when he came in con-  
tact with a 19,800 volt current, which  
was communicated over the telephone  
wire to Rogers on the next pole. But  
were held to the poles by their safety  
belts. Dr. Eugene D. Tapley and Dr.  
Harry L. Kilgore were sent over from  
Belfast on the receipt of the news, but  
found that death had been instantaneous  
in both cases, but worked over them one  
and one half hours before giving them  
up.

#### DONALD B. ROGERS

Donald B. was the only child of Byron  
M. and Annie A. (Brier) Rogers and was  
born in East Belfast, Oct. 23, 1895. He  
was popular with old and young, highly  
esteemed by all and one of the company's  
most efficient and trustworthy workmen.  
Besides his parents, his wife, formerly Miss  
Dorothy Bickford of Camden and their  
three-year-old son, Donald B. Jr., sur-  
vive. The bereaved have the deepest  
sympathy of the community.

The funeral was held Sunday at his  
late home with Rev. William Vaughan  
officiating. The floral tributes were beau-  
tiful. The bearers were Russell Carter,  
Cecil Getchell, Simon Waning, Elmer  
Mason, Harry McTaggart and Roscoe L.  
Hammons, employees of the company,  
whose plant was closed for the hour.

#### HOWARD ROBERT WILSON

Howard Robert Wilson was the son of  
Martin and Blanche M. Wilson and was  
born in Morgan, Vt., March 9, 1893.  
He came to Belfast about five years  
ago and for four years had been employed  
as fireman by the Central Maine Power  
Co. He enlisted July 30, 1918, in the  
Chemical Warfare service and was cor-  
poral of Company C of the regular army,  
being stationed at Syracuse, N. Y., and  
at Lakehurst, N. J. He received his  
honorable discharge June 14, 1919, and  
his official papers records his character  
as excellent. He was a general favorite  
with all, particularly with his fellow  
workmen. He was engaged to Miss Ethel  
Sellers of this city and their marriage  
was to have taken place in September.  
His mother, now residing in Barton, Vt.,  
survives him. The funeral was held at  
the residence of Mrs. Rose York, Main  
street, where he boarded, at 11 a. m.,  
Saturday, Rev. Arthur E. Wilson of-  
ficiating. His remains were taken to  
West Charleston on the noon train, ac-  
companied by his uncle, H. S. Church of  
West Charleston, who was called here by  
the accident.

Frank D. Hazeltine Post, American  
Legion of Honor, of which he was a  
member, draped his casket and also fur-  
nished flowers. The bearers were Messrs.  
Simon Waning, Cecil Getchell, Albert H.  
Morse and Ross L. Hammons.

#### HARRY M. PRENTISS.

The death of Harry Mellen Prentiss,  
which occurred at 5 a. m. Tuesday at his  
home on Court street, has caused general  
grief and regret. He was one of God's  
noble men, honorable, charitable, kind,  
always "Harry" to old and young whom  
he would greet with a smile and helpful  
word. He loved Belfast and its people.  
While on the way here by auto Memorial  
Day with his brother, at whose home in  
Brewer he was taken ill, he said, as they  
came in sight of the city, "The land of  
rest." He had failed gradually for some  
time, but was ill at the last with pneu-  
monia, which caused his death. Mr. Prentiss  
was born in Foxcroft 53 years ago,  
the son of Mellen G. and Rebecca L.  
(Merrill) Prentiss. After attending the  
Brewer schools, where his childhood and  
early manhood were spent, he went to  
the University of Maine. He was a mem-  
ber of Alpha Delta Phi and also of the U.  
of M. Alumni Association of Waldo coun-  
ty. For the past 30 years he had made  
his home in Belfast, coming here as the  
R. R. postal clerk on the Belfast-Burn-  
ham Branch. When a war measure dis-  
continued this work he went on the  
Vanceboro run and was there when obli-  
gated to give up. A petition had been  
circulated to have the run here re-es-  
tablished and the day Mr. Prentiss died word  
was received that the petition had been  
granted and the run would be opened  
June 27th. Mr. Prentiss was married  
Oct. 15, 1895, to Miss Sara Withington  
Francis of this city, who survives him.  
His father, Mr. Mellen G. Prentiss, his  
brother, Charles F. Prentiss, and his sister  
Mildred, wife of Harold W. Wright  
of Bangor, also survive. His mother  
died about three years ago. During the  
thirty years Mr. Prentiss had lived in  
Belfast he was most loyally devoted to  
the North Congregationalist church and  
all its allied societies, having served as  
deacon and in many other official capac-  
ities. The home, the church and the  
city have met an irreparable loss. The  
funeral will take place at his late home  
Friday at 10.30 a. m., with his pastor,  
Rev. Alfred C. Elliott, officiating. The  
remains will be taken to Abington, Mass.,  
on the noon train for interment in the  
Francis lot.

Mr. and Mrs. Arthur Crane and the  
latter's daughter, Miss Isabel Britton of  
Burlington, Vt., left for their home Sun-  
day after a few days' visit with Dr. and  
Mrs. Harry L. Kilgore. They were ac-  
companied by Mrs. Crane's parents, Dr.  
and Mrs. George E. Morgan, who will be  
her guests for several weeks.

You do not have to be of a mechanical turn  
of mind to appreciate that a motor with sliding  
telescopic sleeves will last longer than a motor

The sliding Sleeves of the Willys-Knight  
Sleeve-Valve Motor instead of wearing out—wear  
in with use, producing a condition of ascending  
efficiency up to 50,000 miles or more. This means  
more power and less upkeep, instead of the usual  
experience—more upkeep and less power. "Ride

## THE RIGHT THING AT THE RIGHT TIME

By MARY MARSHALL DUFFEE

### BREAKFAST AT HOME

BREAKFAST in most homes is a gloomy meal, and yet unless some cheerful disaster impends or has already fallen, cheerful countenance and pleasant good mornings are far more natural than the blues.

So the mistress of the house must frown down bad morning manners, just as she must insist upon the polite "Excuse me" when anybody wishes to leave the table before the meal is over. She must see that the maid wears a clean apron while serving and that she goes about her duties quietly, and all this must be done before the meal is over. It is not in the politeness to correct the servant at table. Reading the newspapers at breakfast time is a distinct breach of manners, although the break is allowed in many homes. "If you please," and "no, I thank you," are phrases polite persons accord any member of the family when asked to have something or other, and the same civility is required when dealing with a servant.

At breakfast and luncheon a large tray is generally set for the mistress of the house, from which she serves the tea and coffee. Fruit is served before the meal, and in order that the napkins may not be ruined with the stains finger bowls are then obligatory. Boiled eggs are served in egg cups and not in a glass as in the old messy manner, and it is proper to eat them directly from the shell. As every housewife knows eggs have a way of discoloring silver spoons and there is no reason why they should not be eaten with the small bone spoons that come especially for that purpose.

It is now taken for granted that the persons gathered around the breakfast table have none too much time to spend; therefore more leniency is permitted in manners perhaps than at dinner which is the leisurely meal of the day. For instance, if one person does not care for fruit, it is not discourteous for him to proceed to cereal or eggs or whatever his breakfast consists of. Moreover there is no reason why we should make an effort toward uniformity in breakfasts and if one member wishes to omit any one or more dishes he need make no effort to overcome his prejudice, whereas we do try to take the courses as they come at dinner.

Deficient Vitality a Great Misfortune.

Persons that can rarely or never say that they feel full of life, are really among the most unfortunate. They do not live, but merely exist; for to live implies more than to be. To live is to be well and strong—to arise feeling equal to the ordinary duties of the day, and to retire not overcome by them—to feel life bounding in the veins.

A medicine that has made thousands of people, men and women, well and strong, has accomplished a great work, bestowing the richest blessings. Such a medicine is Hood's Sarsaparilla. The weak, run-down or debilitated, from any cause, should not fail to take it. It builds up the whole system, changes existence into life and makes life more abundant. It is simple justice to say these few words in its favor. Hood's Pills very effectively supplement it in cases where a cathartic or laxative is needed.

FLUFFY NONSENSE.

"The Nation" is running a series of superheated editorials against war with England. That's all right, but these warnings are useless. There will be no war with England and everybody knows it. Neither government wants it and the people of both nations are unalterably opposed to it. They may have their differences, and quarrel even to the point of shaking their fists in each other's faces—but war? No! Then besides each country has had all it wants of war for the next fifty years. The government of either nation that would propose such a plan for arbitrating differences would simply be mobbed and cast out of power. England knows too much to sacrifice her best colonial possession by going to war with the United States and the United States knows too much to take up arms against a power like England. It would be suicide for both countries and they are thoroughly aware of the fact. Publications like "The Nation" would do well to put mufflers on and try to look tranquil. There isn't going to be any war with England.—Fort Wayne News.

### DOES TEACHING PAY?

THE talk that was started by Miss Helen Taft, acting president of Bryn Mawr college, when she asserted that in her opinion the professors of the country should strike for higher salaries has led many people to ask themselves whether or not teaching pays. It has long been called the "worst paid profession" and there is no doubt that the teacher must sacrifice any hopes of a great income, however eminent he or she may become.

Yet there is no profession of a more vital importance than teaching, and the teacher should be treated as, and receive the remuneration of, a valuable member of society. Teaching should be made attractive, and every means that could induce people of talent, force, energy and charm to take up teaching should be used as a matter of course, since the community is bound to benefit.

There are some who say that the vacations of teachers are longer than in the other professions, and this is so. But the work itself is extremely fatiguing; even with the long vacations, many teachers break down in what should be the prime of life. Then these vacations are often curtailed by summer work and extension work.

Teaching in America is largely in the hands of women. It is woman's duty to see that teaching is brought to its highest efficiency, and that it is made attractive to the right people. Teaching must be better paid or the men and women who are most needed as teachers will go into other work.

## THE ROMANCE OF WORDS

"TRAGEDY."

DISCOVERY of the fact that the word "tragedy" is a compound of two Greek words meaning "goat" and "song," and that a literal translation of the original term would be "a song of the goat," throws but little light upon the modern use of the word, until one examines the custom in vogue in ancient Greece, particularly in connection with the production of tragedies.

Here, though, we find that the goat played a central role in these entertainments. Not only was one of the animals offered as a prize for the best performance by the actors but, because the goat is very partial to eating grape-vines, and therefore an enemy of Bacchus—the pagan god of wine in whose honor the festivals were held—one of them was sacrificed at each production of a tragedy. Further to carry out the simile, the actors were dressed for the most part in goat skins, because many of them posed as martyrs, a custom from which we obtain our word "satirical." The singing of a solemn, melancholy song was the signal for the sacrifice of the goat, and it is because of this connection that we apply the word "tragedy" to something which is extremely sad, whether on the stage or in everyday life.

Mr. and Mrs. W. C. Strout and three children of Hartford, Conn., arrived May 24th, and will settle on their farm.

Mr. and Mrs. Clarence Strout of Hartford, Conn., arrived May 26th and are with his brother, Winfield C. They intend to do farming together.

May 22nd will long be remembered in this section by the cyclone or rather two of them which gave us a call. We are glad to say no serious damage was done, but some trees were blown down, roofing torn off and shingles blown away.

Mr. and Mrs. ORIN B. Gray of Prospect celebrated their golden wedding anniversary on Sunday, May 29. More than two score neighbors and friends assembled at their farm home bearing gifts of gold and other tokens of esteem, to offer felicitations on an event sufficiently rare as to never become commonplace. A delicious luncheon was served to the assembled guests and the social hour was most enjoyable. Mrs. Henry S. Moulton, who was present at the wedding 50 years ago, was a special guest from Stockton village. It was on May 30, 1871, that Orren B. Gray, a native of Penobscot, was married to Miss Henrietta Gilman of Stockton village by the Rev. Wellington Sisson of the Universalist church. Miss Gilman, although born in Jackson passed her girlhood in the house on Cross street, now owned by Mrs. Almada Rendell, then the home of her parents, Mr. and Mrs. Charles H. Gilman. The couple have two sons, Everett of Winterport and Charles H., who lives with his parents and is prominent in the affairs of his town. Three sons died in infancy. Hosts of friends congratulate this couple on a life of real success.

Dr. S. L. Fairchild left Monday to attend the Medical Convention in Boston.

Mrs. Alice Shute has returned from Malden, Mass., where she spent the winter.

Galen Finn, the two years old son of Mr. and Mrs. Lester Finn died Friday of measles.

Mr. and Mrs. George Towle and Mr. and Mrs. Robert Brown motored to Tenant's Harbor for the week-end.

Dr. and Mrs. Frederick K. Sawyer and two children of Bangor were the guests of Dr. and Mrs. S. L. Fairchild Monday.

Mrs. Edson Fletcher returned Friday from Portland, where she attended the meeting of the Grand Chapter of O. E. S.

Capt. Amos Nichols and Capt. Charles Nichols will serve as jurors at the term of Federal Court to be held in Bangor next week.

Mrs. John Frame who was seriously injured in the cyclone of May 22nd, is confined to her bed and is improving very slowly.

Chester B. Curtis has sold his house in Main street to Albert Brown. Mr. Curtis has secured a position in Belfast and has moved there with his family.

Miss Dorothy Packard of Sebek Lake returned to Bucksport Seminary Tuesday after spending the holiday as the guest of her aunt, Mrs. Henrietta Young.

Schools in town which should have closed Friday, June 4th, were closed Friday, June 4th, on account of the prevailing epidemic of measles.

Mr. and Mrs. Melvin B. Thompson arrived last week from Boston and are guests of Mrs. Thompson's parents, Capt. and Mrs. A. B. Pendleton.

Miss Maude B. Colcord of Plymouth, Mass., arrived Thursday to spend a few weeks in Searsport as the guest of Capt. and Mrs. Amos Nichols in East Main St.

Mrs. Flora Flanders is closing her shop in Main St. for two weeks. What remains of her stock of millinery and skirts is being disposed of at reduced prices.

Mrs. Lena Field and Miss Mary Field arrived Thursday from Cambridge, Mass., and will occupy the Boulevard apartment on Church Street through the summer.

Mr. and Mrs. Charles Harriman and two children of Whitesville, Mass., and Mrs. Bert Angell and daughter Leah of Rockland, were guests Saturday of Mr. and Mrs. George Towle.

A district meeting of the Rebekah Lodges will be held in Searsport Thursday afternoon and evening, June 9th. It is expected that about 200 members of the various lodges in district No. 7 will be present.

The Searsport branch of the Pullman pants factory started Monday and is now in full running order. John Pullman, the head of the firm, who has been here recently, considers the town a favorable location for such a business, and if the help situation can be satisfactorily adjusted the factory will become a permanent industry, and the business will be enlarged as conditions demand. The Nichols building on Main street, which has been leased by the Pullman company, is conspicuously situated and is one of the old landmarks of the town. It was built in 1864 by John H. Lane and Capt. William McGilvery, and was used as a grain and grocery store. For many years the third floor was used by the Massons as a lodge room. The building is substantial and roomy and with some necessary changes and repairs, will be adequate for the new use to which it will be put.

The first society function of the early summer season was the dinner and card party given at Grinnell's Inn on Friday evening by the Woman's Club, in honor of Dr. and Mrs. S. L. Fairchild who are leaving the 15th of this month for Pennsylvania. Covers were laid for twenty-five guests and a delicious course dinner was served by landlady Grinnell at 7.30, in the large dining room. The table centerpiece was a huge bunch of snapdragons in shades of pink, arranged in a basket tied with wide pink ribbon. Pink lady-slippers and ferns were in vases at either end of the table. Attractive place cards were used. After dinner tables were arranged for 500 which was enjoyed until midnight. A handsome hand made linen table runner and towels to match, were presented to Mr. Fairchild by the members of the Club, Mrs. James H. Duncan making the presentation speech. The affair was one of the pleasantest ever given by the Club, but was tinged with regret at the thought of the imminent departure of the guests of honor, who have hosts of friends by whom they will be sadly missed. Dr. and Mrs. Fairchild came to Searsport ten years ago and have formed many strong ties during their residence here. They have been very popular socially, and Dr. Fairchild has achieved a wide success professionally. They will spend the summer in Watsonstown, Penn., after which they will locate, probably in that state. Besides the guests of honor, those present included, Mr. and Mrs. Wilbur R. Blodgett, Mr. and Mrs. Alfred S. Trundy, Mr. and Mrs. Frank C. Whitcomb, Mr. and Mrs. E. W. Gilkey, Mr. and Mrs. L. H. Haver, Mr. and Mrs. Melvin B. Thompson, Mr. and Mrs. James H. Duncan, Mr. and Mrs. G. Renfrew Wilson, Mr. and Mrs. Edson Fletcher, Miss Harriette Erskine, Miss Mabel Griffin, Miss Florence Colcord, Miss Harriett Roulstone, Herbert R. Dyer.

Tasker and Miss Christine Jones furnished music for this occasion.

The graduating exercises of the class of 1921 of B. H. S. were held in Union hall Thursday. At 7.30 the doors were open and at 8.30 the hall was packed to standing room only. ## STOCKTON SPRINGS

Miss Beatrice Steele of Harrington returned home on Sunday after being the guest for several days of Mrs. John C. Gordon.

Guy E. Lawrence came home Saturday afternoon from several weeks relief work at Norcross station.

The three-master Harriett B. Capt. Murphy, is discharging hard pine ties at the big dock for the railroad.

Mr. and Mrs. James M. Crocker arrived home Monday night after an absence of several months at Bridgeport, Conn.

W. H. Morrison, Edgar and Arthur Colcord and O. A. Brown returned Friday from a trip in the Uncas for ground fish, and have left on another trip.

Barge Oley slowly discharged at the Cape docks by old fashioned methods.

The S. S. Ripogenuis, which arrived from Norfolk early last week, drew too much water for the river at Bangor and so proceeded to Portland to unload.

The barge S. T. Co. No. 8, is receiving finishing touches at the Stockton Yard, Inc., for the Pelepsot Paper Co. but, according to current report, will remain on the stocks for an indefinite time, owing to the depression in the pulp wood business.

Mr. and Mrs. Ralph Clifford arrived recently from Springfield, Mass., and are with their parents, Mr. and Mrs. Herbert Clifford. Mr. Clifford with D. J. Hennessy of Springfield, who arrived Saturday, have opened a repairing garage in the Colcord building at the corner of Station street.

It is reported that the contract for the State road from the village square to the Prospect town line, a distance of 3.23 miles, has been awarded to a firm in Hartford, Conn., thus assuring a local improvement which entitles the citizens—and others—to a reasonable amount of rejoicing. The work will necessitate a detour over the state-aid road to Sandy-point village, thence to Prospect by the so-called Jordan road which will be put in shape to stand traffic.

Interesting experiences during the recent near-tornado continue to transpire. One family party, which stood on a lawn watching the small waterspouts on the harbor until driven to shelter, no sooner had gone indoors than a large larch tree was uprooted and fell where they had stood. A well-known resident walking on the track took refuge in the woods near Freeman Harriman's camp and speedily found himself in a serious plight, hard put to it to escape the falling trees, while at the camps at Blanchard's cove, a short distance away, nothing especially severe was felt.

## HIS FIRST ORATION

(By Adele Barney Wilson in the Youth's Companion.)

'Twas the last day of school, and Theophilus Beech was going to make his first public speech. His mother had carefully taught him each word. And fifteen or twenty rehearsals had been heard. Beginning "Dear teacher, so kind and so pleasant," It told her the scholars had bought her a present. The phrases were long, but Theophilus knew them, And backward, he boasted, was sure could go through them. He'd learned when to bow, and the platform to leave; It came after saying, "This token receive."

Then handing the box, he would gracefully go To resume his seat in the best scholars' row. "Some day I shall stand in a pulpit and preach," So thought to himself proud Theophilus Beech.

But when it was time for the elegant speech, So loud thumped the heart of Theophilus Beech, So short was his breath and so shaky his knees, His cheeks burning up and feet ready to freeze, He thought with such terrible symptoms united He'd certainly die if he stood and recited; And what seemed to him most mysterious of all, The very first sentence he couldn't recall.

So, trembling and panting, he stalked up the aisle, And met with a scowl his teacher's sweet smile. He snatched up the box as if he would break it, And shouted as though in the schoolyard, "Here, take it!"

Then throwing it down far out of her reach, He ran to his seat, poor Theophilus Beech.
